Summary

Personally, I am a quick study and problem solver. I work well on tasks either individually or as part of a team. I would like appreciate being considered for the above job posting and advance my skills to benefit not only myself, but the organization as well. Completed my Software Development Diploma at the Tshwane University of Technology specializing in SQL, .NET OOP and systems design and implementation. Throughout my working journey i have acquired valuable skills that compliments my hard working spirit and determination towards the job, from backend competencies to those of frontend. Thank you for your consideration.
